

An aerial photograph of a winding asphalt road through a dense green forest. The road curves through the landscape, with a few small vehicles visible. A large, stylized yellow graphic, resembling a partial circle or a stylized 'C', is overlaid on the road, framing the central text.

Coronavirus impact on European Road Transportation

62 Total Responses

Time period 1:

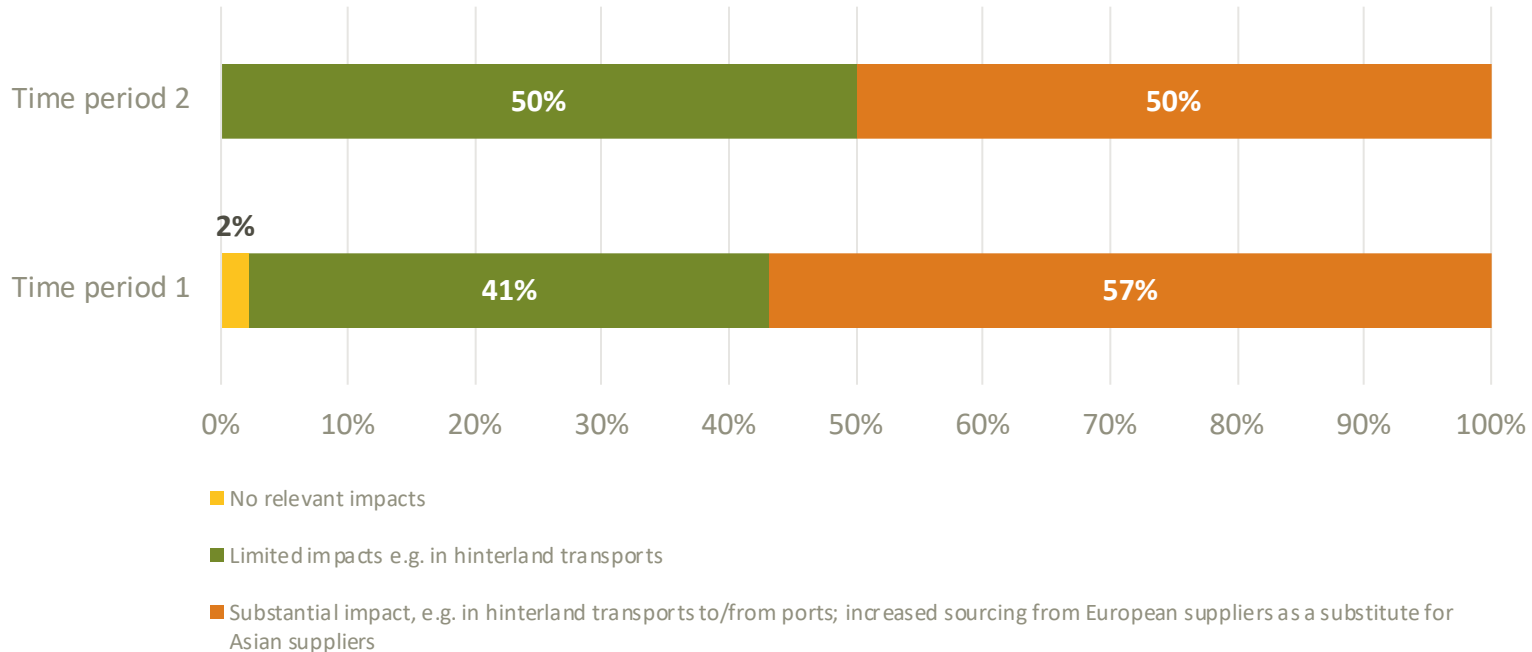

11.03.2020 - 17.03.2020

Time period 2:

18.03.2020 - 23.03.2020

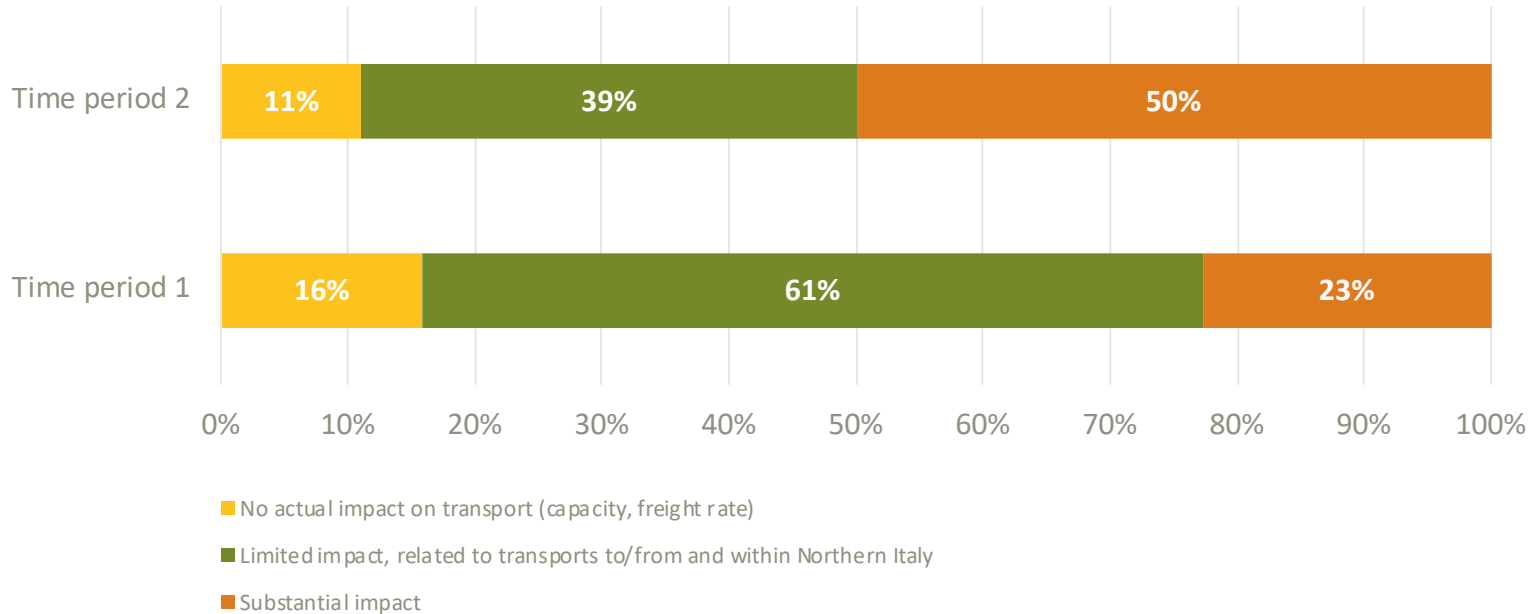

Q1:

At first the new coronavirus affected intercontinental air and ocean transport from/to the Far East. How much do you expect this to impact intra-European transportation?

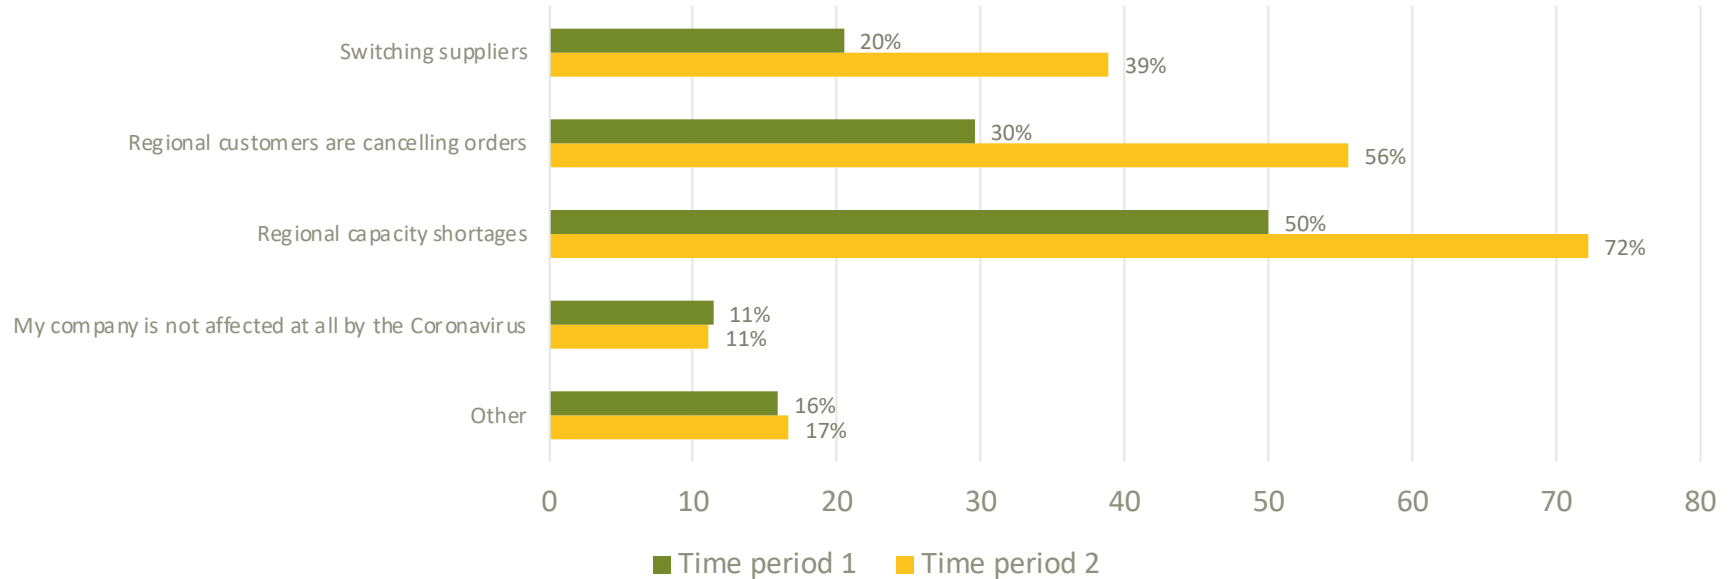

Q2:

The coronavirus has reached Europe. Northern Italy is the first hot spot. At this point of time, is your company already affected?

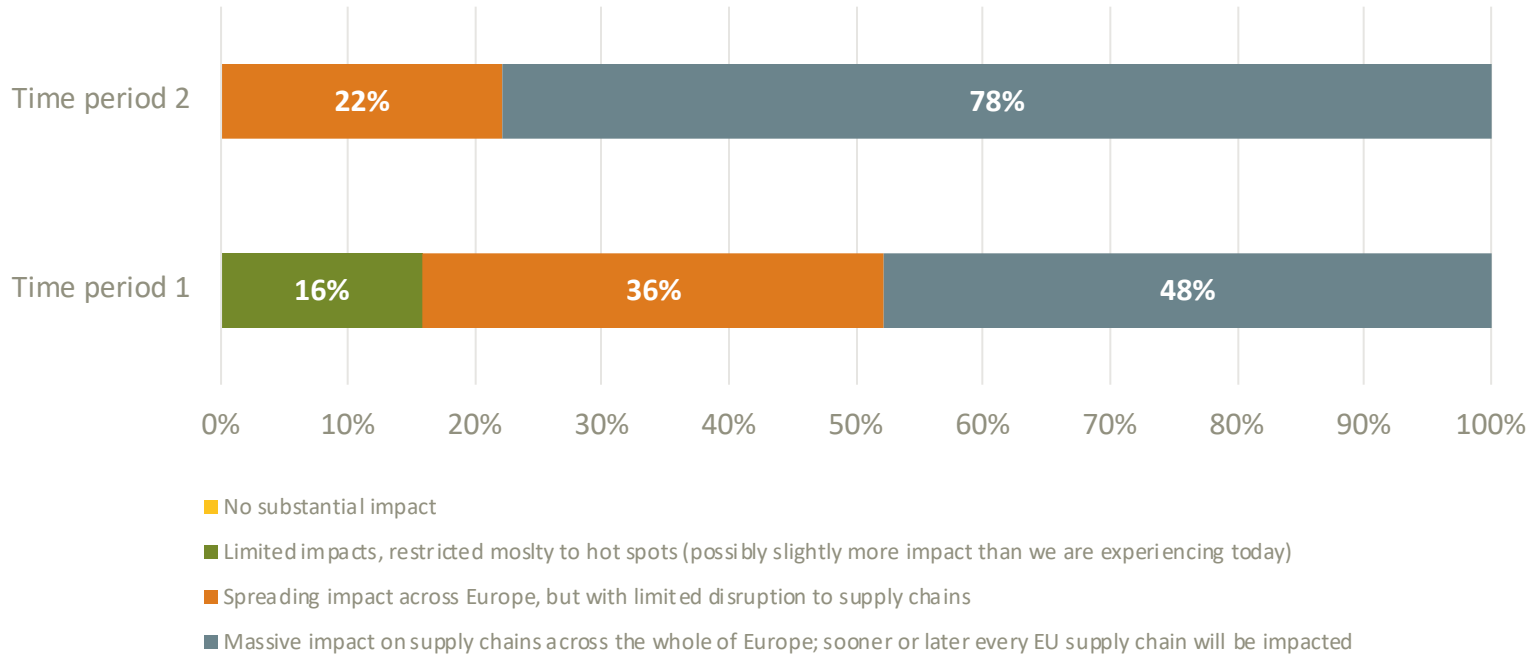

Q3:

If you answered 'Yes' in the previous question, please precise your answer. My company is already affected by strong impacts, e.g.

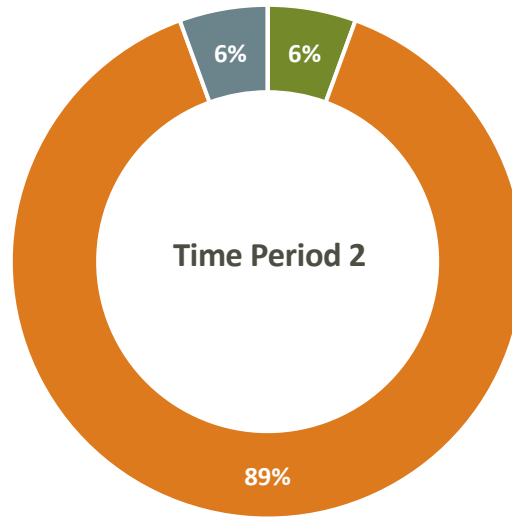

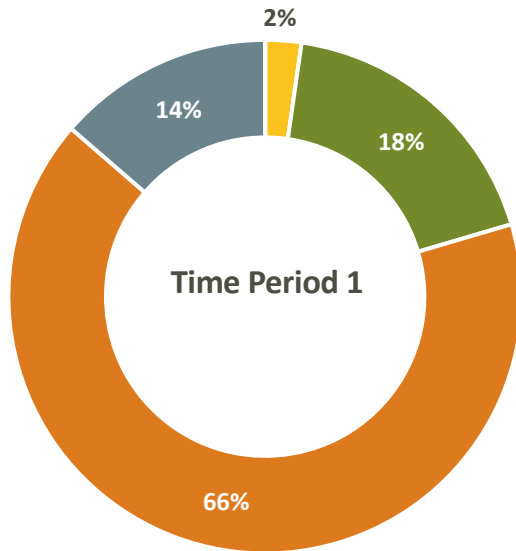

Q4:

In the mid-term, how do you expect the coronavirus to impact European transportation?

Q5

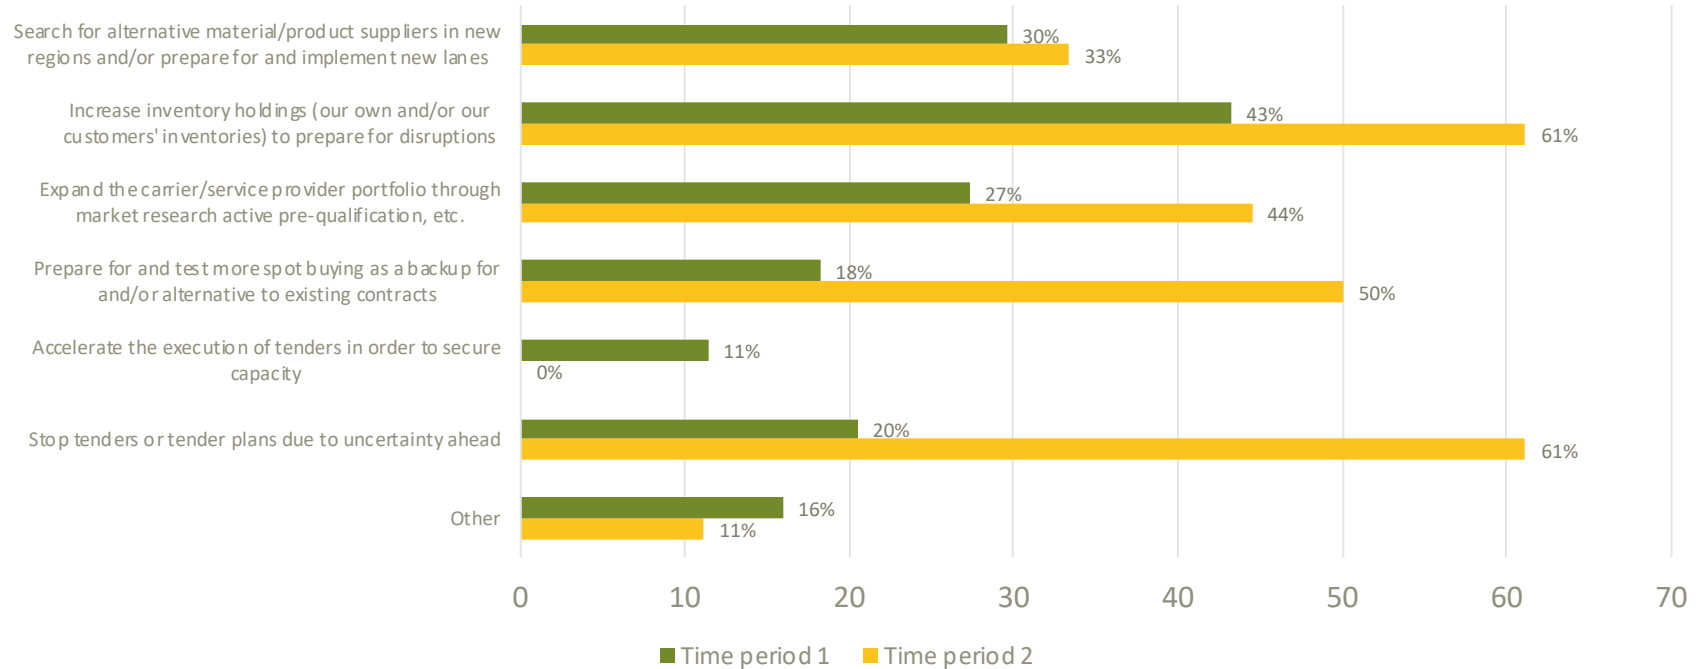

What are your expectations about the time pattern of coronavirus impact?

- We have reached a peak in the number of infections and consequent government and corporate reaction; compared with the current situation, there will be no additional impact on supply chains and transportation in future
- Peak will be reached soon, in March
- Peak will be reached in Q2 and, from then onward, impact will decrease
- Peak will be reached in Q3 with reduced impact towards the end of 2020
- Peak will be reached in Q4 with effects extending well into 2021

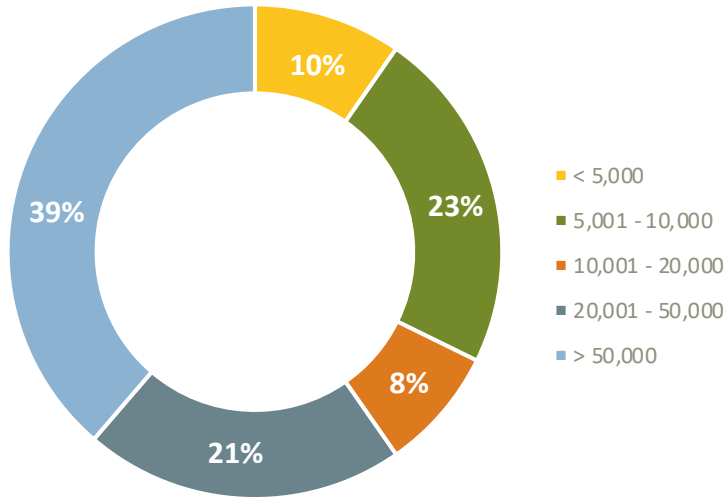

Q6:

What measure(s) are you considering or already implementing in response to the coronavirus?
Please select multiple applicable answers:

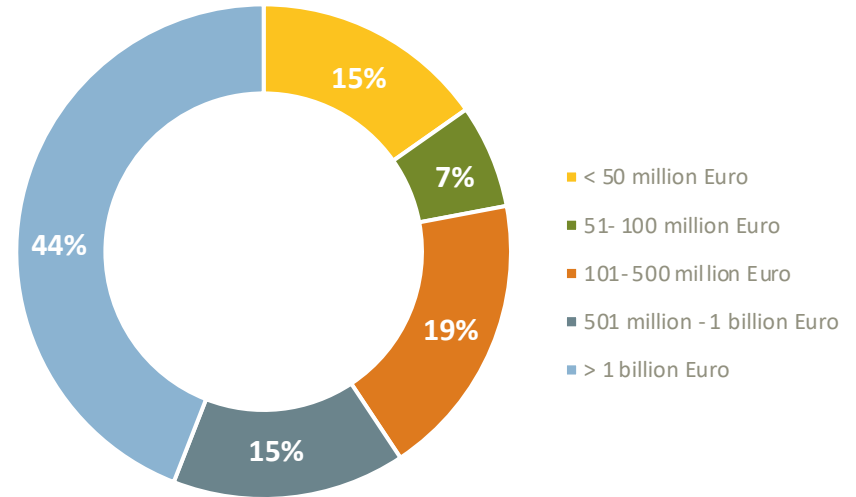

Q7:

How many road transports per year does your company assign to carriers?

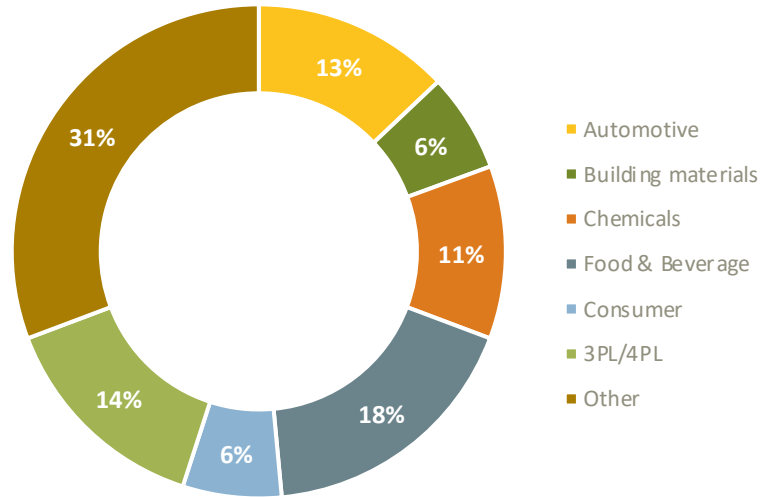

Q8:
